

One Heart Bulgaria

HOPE • LIFE • FUTURE
for Orphans

ABOUT ONE HEART BULGARIA

One Heart Bulgaria is a non-denominational, non-profit organization dedicated to relieving the needs of orphans in Bulgaria. We do this by helping provide for their educational and emotional as well as physical needs.

HOW WE HELP

One Heart Bulgaria's Sponsorship Program provides for the children's basic needs through our One Heart Bulgaria staff, who regularly visit and assess all the needs of the children. Funds donated towards this program support the orphanages in the following ways:

- **Supplemental food, hygiene items, and medicines** are greatly needed in the orphanages yet quite inexpensive when purchased directly in Bulgaria. This eliminates expensive shipping while benefiting the Bulgarian economy as well.
- **Caregivers and teachers** provide the orphans with consistent individual attention, affection and mentoring.
- **Therapists and nurses** care for mentally disabled and handicapped orphans who require professional assistance and attention in order to function and progress.

Special Projects and Internship Programs: Additional needs are met through individualized projects and with service interns. One Heart Bulgaria's programs have all been created with the main goal of dramatically improving the lives of orphans in Bulgaria. One way we prepare them for the future is by providing teachers for life-skills classes. Qualified trained interns also work in orphanages organizing activities, sports, mentoring, and care.

GET INVOLVED

It's easy to get involved with One Heart Bulgaria and make life-changing differences for these children. Whatever you choose to do, be assured that your help will go directly where it is needed most: the children. That's our promise!
